Total percentage of top 10 investments	38.79%
Total number of investments	64

Investment mix (March 31, 2018)

How risky is it?

The value of the fund can go down as well as up. You could lose money.

One way to gauge risk is to look at how much a fund's returns change over time. This is called "volatility".

In general, funds with higher volatility will have returns that change more over time. They typically have a greater chance of losing money and may have a greater chance of higher returns. Funds with lower volatility tend to have returns that change less over time. They typically have lower returns and may have a lower chance of losing money.

Risk rating

FAM has rated the volatility of this fund as **medium**.

This rating is based on how much the fund's returns have changed from year to year. It doesn't tell you how volatile the fund will be in the future. The rating can change over time. A fund with a low risk rating can still lose money.

For more information about the risk rating and specific risks that can affect the fund's returns, see the "What is a mutual fund and what are the risks of investing in a mutual fund" section of the fund's simplified prospectus.

No guarantees

Like most mutual funds, this fund doesn't have any guarantees. You may not get back the amount of money you invest.

How has the fund performed?

This section tells you how the Class A0 units of the fund have performed since inception. Returns are after the expenses have been deducted. These expenses reduce the fund's returns.

Year-by-year returns

No information is currently available for this class as it has been distributing securities under a simplified prospectus for less than one calendar year.

Best and worst 3-month returns

No information is currently available for this class as it has been distributing securities under a simplified prospectus for less than one calendar year.

Average return

No information is currently available for this class as it has been distributing securities under a simplified prospectus for less than 12 consecutive months.

Who is the fund for?

Investors who:

- are looking for a long term investment
- are seeking distributions which are in the form of dividend income
- are comfortable with moderate changes in value during the term

Don't buy this fund if you have a low tolerance for risk and are seeking to preserve capital.

A word about tax

In general, you'll have to pay income tax on any money you make on a fund. How much you pay depends on the tax laws where you live and whether or not you hold the fund in a registered plan, such as a Registered Retirement Savings Plan or a Tax-Free Savings Account.

Keep in mind that if you hold your fund in a non-registered account, fund distributions are included in your taxable income, whether you get them in cash or have them reinvested.

How much does it cost?

The following tables show the fees and expenses you could pay to buy, own and sell Class A0 units of the fund.

The fees and expenses – including any commissions – can vary among classes of a fund and among funds. Higher commissions can influence representatives to recommend one investment over another. Ask about the funds and investments that may be suitable for you at a lower cost.

1. Sales charges

You have to choose a sales charge option when you buy the fund. Ask about the pros and cons of each option.

Sales charge option	What you pay		How it works
	in percent (%)	in dollars (\$)	
Initial Sales Charge (ISC)	0% to 5% of the amount you buy	\$0 to \$50 on every \$1,000 you buy	<ul style="list-style-type: none"> You and your representative decide on the rate. The initial sales charge is deducted from the amount you buy. It goes to your representative's firm as a commission.
Deferred Sales Charge (DSC)	If you sell within: 1 year of buying 6.0% 2 years of buying 5.0% 3 years of buying 4.0% 4 years of buying 3.0% 5 years of buying 2.0% 6 years of buying 1.0% After 6 years nothing	\$0 to \$60 on every \$1,000 you sell	<ul style="list-style-type: none"> The deferred sales charge is a set rate. It is deducted from the amount you sell, based on the initial cost (book value) of units redeemed. When you buy the fund, FAM pays your representative's firm a commission of up to 5%. Any deferred sales charge you pay goes to FAM. You can sell up to 10% of your units each year without paying a deferred sales charge, prorated to the amount of time such units have been held in the current calendar year. The 10% free redemption is not cumulative. You can switch between deferred sales charge classes of imaxxFunds at any time without paying this sales charge. Instead, the existing deferred sales charge schedule will continue with your new fund. You can switch to Class F, F0, F2, F3, F4 or F5 units of this fund, or other imaxxFunds, if you are eligible to purchase them. Any applicable deferred sales charge will apply.
Low Load Sales Charge (LSC)	If you sell within: 1 year of buying 2.0% 2 years of buying 2.0% After 2 years nothing	\$0 to \$20 on every \$1,000 you sell	<ul style="list-style-type: none"> The low load sales charge is a set rate. It is deducted from the amount you sell, based on the initial cost (book value) of units redeemed. When you buy the fund, FAM pays your representative's firm a commission of 1%. Any low load sales charge you pay goes to FAM. The 10% free redemption is not available for low load units. You can switch between low load sales charge classes of imaxxFunds at any time without paying this sales charge. Instead, the existing low load sales charge schedule will continue with your new fund. You can switch to Class F, F0, F2, F3, F4 or F5 units of this fund, or other imaxxFunds, as applicable, if you are eligible to purchase them. Any applicable low load sales charge will apply.

How much does it cost? (cont'd)

2. Fund expenses

You don't pay these expenses directly. They affect you because they reduce the fund's returns.

As of December 31, 2017, the fund's expenses were 2.51% of its value. This equals \$25.10 for every \$1,000 invested.

	Annual rate (as a % of the fund's value)
Management expense ratio (MER)	
This is the total of the fund's management fee (which includes the trailing commission) and operating expenses. FAM waived some of the fund's expenses. If it had not done so, the MER would have been higher.	2.43%
Trading expense ratio (TER)	
These are the fund's trading costs.	0.08%
Fund expenses	2.51%

More about the trailing commission

The trailing commission is an ongoing commission. FAM pays your representative's firm a trailing commission for as long as you own units of the fund. It is for the services and advice your representative and their firm provide to you. Your representative's firm may pay part of the trailing commission to their representatives.

The trailing commission is paid out of the management fee and is based on the value of your investment. The rate depends on the sales charge option you choose:

Sales charge option	Amount of trailing commission	
	in percent (%)	in dollars (\$)
Initial sales charge	1.00% of the value of your investment each year	\$10.00 each year on every \$1,000 invested
Deferred sales charge	0.50% of the value of your investment each year	\$5.00 each year on every \$1,000 invested
Low load sales charge	1.00% of the value of your investment each year	\$10.00 each year on every \$1,000 invested

3. Other fees

You may have to pay other fees when you buy, hold, sell or switch units of the fund.

Fee	What you pay
Short-term trading fee	2% of the value of units you sell or switch within 90 days of buying them. This fee goes to the fund.
Switch fee	Your representative's firm may charge you up to 2% of the value of units you switch to another imaxxFund.

What if I change my mind?

Under securities law in some provinces and territories, you have the right to:

- withdraw from an agreement to buy mutual fund within two business days after you receive a simplified prospectus or Fund Facts document, or
- cancel your purchase within 48 hours after you receive confirmation of the purchase.

In some provinces and territories, you also have the right to cancel a purchase, or in some jurisdictions, claim damages, if the simplified prospectus, annual information form, Fund Facts document or financial statements contain a misrepresentation. You must act within the time limit set by the securities law in your province or territory.

For more information, see the securities law of your province or territory or ask a lawyer.

For more information

Contact Foresters Asset Management Inc. or your representative for a copy of the fund's simplified prospectus and other disclosure documents. These documents and the Fund Facts make up the fund's legal documents.
